

A-LIST BROADCAST Automation & Streaming

Managing schedule changes for

DAYLIGHT SAVINGS TIME

You only have to do it TWICE a year if your time zones change, so here's what you do.

SPRING FORWARD

DO NOT schedule a 3AM Event!

Schedule a two-hour Event from 2AM to 4AM. Put a MINIMUM of ONE HOUR of content in the 2AM Event (an UNDER condition).

The 2AM Event will start, and then the clock will *Spring Forward* to 3AM (which takes a few seconds), and the Event will continue to run (for about 00:59:50) until the NEXT EVENT begins at 4AM.

FALL BACK

DO NOT schedule a 2AM Event!

Schedule a two-hour Event from 1AM to 3AM. Put a MINIMUM of THREE HOURS of content in the 1AM Event (an OVER condition).

The 1AM Event will start, and after one hour of playback the clock will *Fall Back* to 1AM (which takes a few seconds), and the Event will continue to run until the NEXT EVENT begins at 3AM.
