PTX[™]

Model 3 PRO Universal PanTilt Head

**SHIPPING
Q4 2021!**

Weight & Dimensions (approximate)

6" x 9" x 15"
(152 x 228 x 381mm)
20 lbs / 9 kg

The **PTX Model 3 PRO** combines the best connectivity and performance features of both the previous models (1L and 2) into a sleek, powerful and whisper-quiet precision robotic head that's a great platform for any camera – from a **Blackmagic Micro Studio Camera 4k** or **Pocket Cinema** – to the **URSA** body styles and other larger form factors like the **Canon C** models and **Sony FX** line.

It also introduces the **Sony Alpha** series and the **Sony RX 10 IV** 'bridge' camera - with built-in **25x optical zoom lens** - to the world of remote controlled camera production. We've also added VISCA over IP control for compatibility with a broader range of controllers.

We'll be continually updating our website with Model 3 PRO information, but we encourage you to get a request in the queue now for delivery in the fourth quarter of this year!

**AJA • ARRI • Blackmagic • Canon • Datavideo
GoPro • JVC • Marshall • Panasonic • RED • Sony
and others**
