## RUSHPROMPTER™ Powerfully Simple Teleprompting Software

**RUSHPROMPTER** is the most “Powerfully Simple” teleprompting solution available. We’ve included only what’s essential for the prompting ‘experience’, eliminating unnecessary complexity while maintaining universal flexibility and versatility.

It was designed for integration with the RUSHWORKS **VNEWS** Production System, supporting full rundown script creation with waypoint insertion for stories with automated camera and dolly presets, overlays and screen effects.

- Rich & Plain Text Support (.rtf & .txt)
- Find/Replace function
- Real-time font size adjustment
- One-click switch to UPPERCASE
- Variable line spacing
- Full text style & color support
- Easy to learn shortcut keys
- Standard USB device support
- Multi-monitor flip & mirror display

The application runs on Windows (7, 8, 10) and supports mirrored and/or extended monitor displays.

Fully integrated with VNEWS

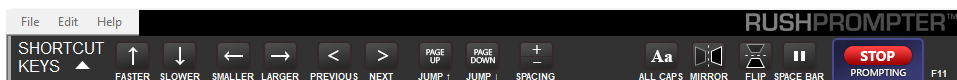

for single operator newscasting

USB Device Control for Prompter Scrolling

The **EDITING** screen displays all the familiar style and layout controls, along with our Waypoint button for adding simple script navigation to your stories.

The **PROMPTING** screen displays shortcut key reminder controls for navigating the script and resizing the prompting display.
